

Team Work

Makes The Dream Work

AVG LOGISTICS®
A STEP AHEAD

“Teamwork is the ability to work together towards a common vision; the ability to direct individual accomplishments towards organizational objectives. It is the fuel that allows common people to attain uncommon results.”

— Andrew Carnegie

AVG Logistics Limited keeps an eye on the big picture.

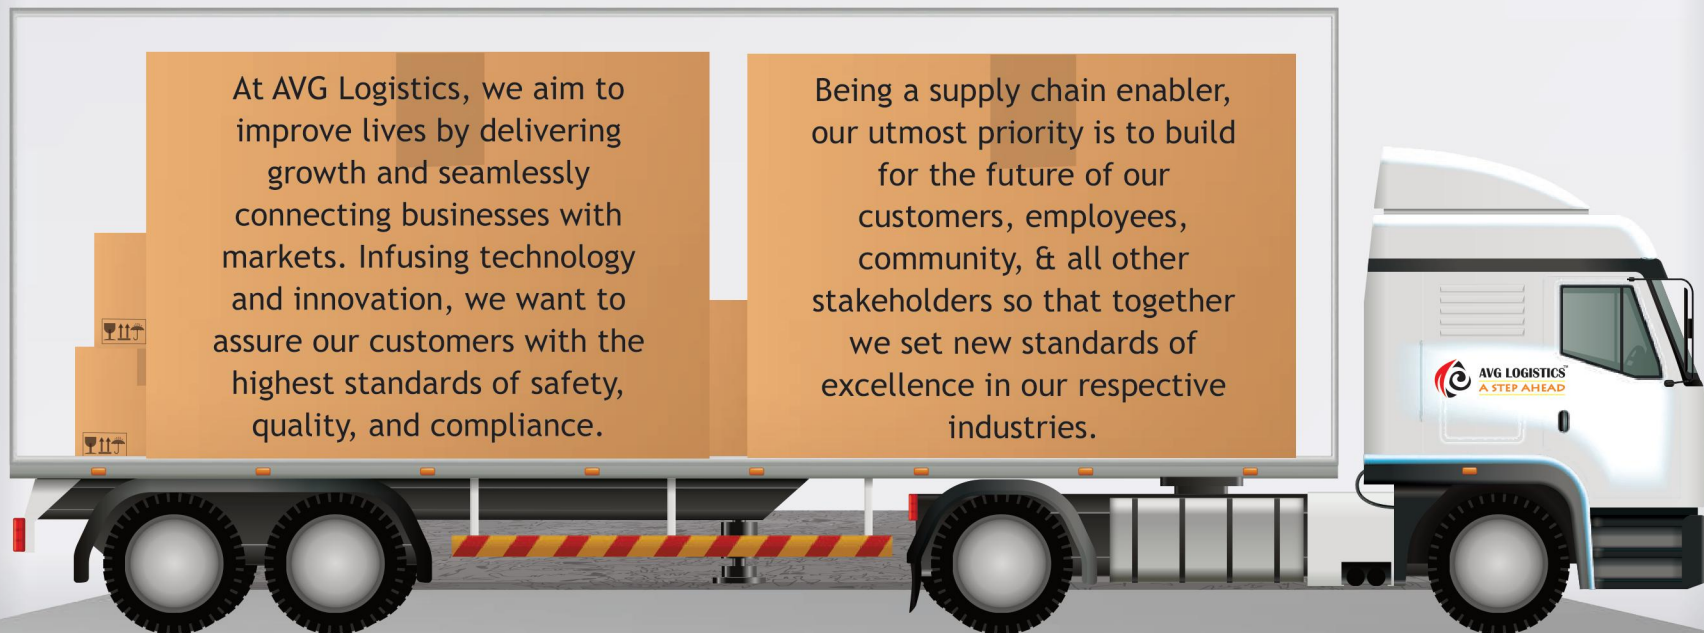

We've been growing year by year and getting more and more specialized in our industry.

MISSION

At AVG Logistics, we aim to improve lives by delivering growth and seamlessly connecting businesses with markets. Infusing technology and innovation, we want to assure our customers with the highest standards of safety, quality, and compliance.

VISION

Being a supply chain enabler, our utmost priority is to build for the future of our customers, employees, community, & all other stakeholders so that together we set new standards of excellence in our respective industries.

FROM THE MD's DESK

Mr. Sanjay Gupta

AVG Logistics Limited, a young company of modest beginnings, was incorporated in 2010 and places its highest interest in serving the community and providing its customers with cutting edge customized logistics solutions for every need and assuring them of high safety of their consignments, good quality of transportation, and strong compliance in achieving the desired results. We aim to open up a wide array of opportunities to the market players so that together we can build a greater world.

Our motto is to be able to extend our reach to people in all parts of the country so that our timely and affordable services are made available to all. With a sharp focus on cost-effectiveness, high levels of customer satisfaction, and a strong growth orientation, we strive to hold a competitive advantage and be the market leader in our industry.

2018 has been a historic year for the company and it fills us with immense pride that we now call ourselves a Public Company. This milestone has been possible due to the concerted efforts of the whole team of AVG Logistics. We have been fortunate to receive the support of many investors and hence, build a market reputation which therefore enables us to foster growth.

“The only irreplaceable capital an organization possesses is the knowledge and ability of its people” - Andrew Carnegie. Thus, the core strength of AVG lies in its team - our jockeys - the truck drivers, and our employees, which collectively make an excellent workforce. Together with a dedicated and value driven team of 400+ extremely enthusiastic and experienced individuals, we work hard to meet all your expectations. To safeguard the lives of the AVG family, we place high importance on Road safety and conduct regular workshops to train our drivers on how to avoid risk and ensure safety of both their lives and the goods being transported.

We welcome you to browse through our brochure and have a first-hand impression of our capabilities. We therefore, seek continued support of our esteemed customers and thank our well-wishers who have contributed to the growth of AVG Logistics.

Best Regards
Sanjay Gupta

OUR JOCKEYS

“I have been engaged with AVG Logistics since its inception and even though I am a driver, everybody at AVG treats me with respect, dignity & like family. Reverently, we are called Jockeys. Jockey refers to the professional rider of a horse, which relates to us. Just as a jockey remains in full control over a horse, we deploy full control over our vehicle - from its speed to its fitness. To ensure our safety AVG conducts recurrent training & pep talk sessions in road safety and also carries out Journey Risk Assessments on critical routes. We are encouraged to use technology by being offered access to customized Apps for location tracking etc. Furthermore my family also benefits from initiatives under the company's CSR policy. I am passionate about my job and proud, contented and blessed to be a part of the AVG family. My pursuits are aligned with AVG's tagline - **A Step Ahead.**”

Blind School Donations

India is the home of maximum counts of visually impaired children. According to the research of the World Health Organization, 15 million people are blind in India and 37 million in total. However, AVG Logistics is consistently trying to provide help to the Blind School through donations so that the visually impaired ratio can be lessened. We support students for their education, because, education is a birthright, and no one should despair from it. We hope, our donation can help them to stand independently and provide them a good life.

Old Age Homes

As time escapes from a human body, senior citizens are referred to as elders and burdens. They start to face problems as a consequence of social transformation. This reflects the transition from the traditional ways of life to modern patterns. And the senior citizens always get compromised and thrown to Old Age Homes. It's depressing because at this age they couldn't help themselves. Meanwhile, we at AVG Logistics understand decades of a living pattern of elders. To help them out we provide wheelchairs, clothes, winter supplies, Medipedic Walker Castor, Stick Tripod and Pedder so they could accept the steady changes and can embrace difficult circumstances.

Support to Kerala Flood Relief Funds

Kerala is a state in India on tropical Malabar Coast, surrounded with Arabian Sea shorelines, and backwater canals, which lays in unprecedented flood havoc always. The state has caused immeasurable misery and devastation and thousands of lives swept away in a natural disaster. With a little help, we can support in order to rebuild their lives with a genuine contribution. We at AVG Logistics hope our help to Kerala Flood Relief Funds can rebuild their hope and dreams.

Tree Planting

Organizations across the world are increasingly waking up to the idea of environmental sustainability. Recently, AVG Logistics planted 100 trees in Bangalore to control the increasing Global Warming and to safeguard our Mother Earth for our future generations. Planting trees not only reduces pollution in the area but the greenery around also provides a healthy mind. Apart from being a social activity, it is also the responsibility of every business to enhance the environment around them.
